

VALONA GR 7005

Metalworking

TOTAL

Chlorine-free neat oil for honing and superfinishing.

UTILISATIONS

- **VALONA GR 7005** has been specially developed for honing (with stone and diamond tools) and superfinishing on ferrous and non-ferrous metals : hard, very high strength steels, extra soft and mild steels, etc.
- The oil is also suitable for cutting soft metals and aluminium.
- **VALONA GR 7005** is a **highly fluid, lubricating and detergent oil**. It can be used for effective washing of honing stones and the surface of the workpiece; metal and abrasive particles settle out practically instantaneously, thus avoiding recycling in the spray circuit.

ADVANTAGES

- Highly fluid oil offering excellent cooling properties,
- Very good lubrication,
Smooths out the abrasion of the sharpest projections in order to obtain absolutely "polished" surface finishes.
- Excellent detergent properties:
Prevents tool fouling.
- Excellent anti-wear properties,
- Good extreme pressure properties,
- Prevents the formation of oil mists.
- Non-carcinogenic oil (DMSO UV index < 200).
- Formulated with hydrocracked base oil.

TYPICAL CHARACTERISTICS	METHODS	UNITS	VALONA GR 7005
Appearance	visual	-	Clear
Colour	visual	-	Yellow
Density at 15°C	ASTM D 1298	kg/m ³	840
Viscosity at 40°C	ASTM D 445	mm ² /s	5
Cleveland Flash Point	ASTM D 92	°C	100 mini.
DMSO-UV Index	ASTM D 2269	-	40

Above characteristics are mean values given as an information.
