

OIL INTEL

YOUR COMPLETE SANITISING PACKAGE

Another day with zero new cases? The sacrifices kiwis made together have made that possible. A powerful team-spirit our nation has shown for sure!

WE MADE IT THIS FAR

The way people view hygiene will never be the same. Post-pandemic, the public will continue to demand your full preparedness when interacting with you or your staff. To help you with this, we offer the full Chemz sanitiser range. At the best price.

High touch areas, (electronic) equipment, hands: the Chemz range has it covered. This range was specifically developed to kill bacteria, viruses and yeasts, enabling you to focus on getting operations back to optimal levels.

WHILE STOCK LASTS

You can now order these fully approved sanitisers through your local Oil Intel rep or call: **0800 868 256 (0800 TOTAL OIL)**.

CHEMZ HAND SANITISER

CHEMZ HAND SANITISER is a highly effective alcohol-based, medical grade sanitiser which also contains Benzalkonium Chloride (BAC) disinfectant to give additional sanitising power.

- Quick acting and highly effective alcohol-based hand sanitiser
- Kills a range of bacteria, enveloped viruses, fungi and yeast
- Kills 99.9% of germs. Effective against a wide range of pathogens
- Rapidly evaporates from hands without leaving an odour
- Contains an emollient to moisturise hands
- Fragrance free
- Disinfects hands wherever soap and water are not readily available.

CHEMZ SURFACE + EQUIPMENT SANITISER & CHEMZ IPA CLEANER

CHEMZ SURFACE + EQUIPMENT SANITISER is a highly evaporative, no rinse ethanol based sanitiser for use wherever food is handled, prepared or served. Chemz Surface + Equipment Sanitiser has an MPI C44 rating which indicates that it can be used in Food Processing areas subject to the instructions on the label.

The IPA version serves exactly the same purpose but is Isopropyl Alcohol based and is available as **CHEMZ SURFACE + EQUIPMENT SANITISER – IPA** in bulk formats and as Chemz IPA Cleaner in a 300ml aerosol.

- Sanitises soft and hard surfaces
- Kills a range of bacteria, enveloped viruses, fungi and yeasts
- Kills 99.9% of germs. Effective against a wide range of pathogens
- Rapidly evaporates without leaving an odour
- QAC free
- Excellent for use on hard to reach areas.
